## Software engineer

### EXPERIENCE

#### Software engineer

Citace.com, s. r. o.

July 2023 - present

Working on productivity tools for students and academics using JS and React, including a cross-browser extension and a Word add-in.

Masaryk University

February 2022 - October 2023

Worked on the internal Information System for students and teachers using Perl, SQL, and JS.

#### Developer & game tester

Freelance

May 2020 - present

I have worked on several freelance projects, predominantly via the Fiverr platform, mainly around NodeJS and the Discord API.

#### Developer & writer

Personal projects

February 2019 - present

Over the years, I have worked on many small and large personal projects. The main ones include the Eledris blog about worldbuilding, the Art Prompts Android app and Discord bot, as well as several open-source Discord bots and an open-source Android app, Jots.

### OPEN SCIENCE

I am dedicated to the principles of Open Science, striving for accessibility in publications, data, and software. Below is a list of my contributions to projects in this movement.

#### Voice clip validation

Mozilla Common Voice

300+ clips validated

Common Voice is an initiative allowing individuals to donate their voice or validate voice clips, in order to build a large database of open voice data used to improve NLP projects.
